How to Nail That Perfect Manicure

1. Use polish remover to clean your nails, then clip and file them.
2. Exfoliate your hands with a body scrub, then soak your fingers in warm water.
3. Massage a cuticle oil into your cuticles, and moisturize your hands.
4. Use a cuticle pusher to push back overgrowth from nail beds. Never cut the cuticle!
5. Wipe nails again with polish remover or alcohol to remove oils from the surface.
6. Apply a thin layer of clear base coat to hydrate nails and extend the life of your manicure.
7. Brush on a thin coat of color and wait for it to dry before applying a second coat.
8. Apply a fast-drying, clear coat once your color has dried.
9. Use a small makeup brush dipped in polish remover to remove any excess polish.
10. Reapply the clear top coat every couple days to keep your manicure looking fresh.
